PROFESSIONAL SUMMARY

Motivated M.Sc. Computer Science graduate with hands-on experience in Android Development, Flutter, Fullstack Development, and AI-powered applications. Skilled in Java, Dart, Flutter, Android SDK, Node.js, REST APIs, and enterprise mobile solutions. Experienced in integrating RFID, NFC, QR Code, Geofencing, Biometric Authentication, and real-time tracking systems to build scalable, secure, and user-centric software solutions.

SKILLS

Programming Languages: Java, Dart, Python, C, JavaScript
Web Technologies: HTML5, CSS3, Bootstrap, jQuery
Mobile Development: Android SDK, Android Studio, Cross-Platform Development
Frameworks Libraries: Flutter, React.js, Node.js, Express.js, MVVM Architecture
Databases: MySQL, MongoDB, PostgreSQL, SQLite
APIs Integration: REST APIs, JSON, Retrofit, Volley, Third-Party API Integration
Mobile Technologies: TensorFlow Lite, Google ML Kit, RFID, NFC, QR Code Integration, Geofencing, GPS Tracking, Biometric Authentication, Location Services
Tools Platforms: Git, GitHub, Postman, VS Code, Android Studio
Software Engineering: MVC, MVVM, OOP, Authentication, Authorization, UI/UX Design, Responsive Design, SDLC
Soft Skills: Communication, Teamwork, Problem Solving, Time Management

EDUCATION

M.Sc. Computer Science	2025
Savitribai Phule Pune University	75.20%
B.Sc. Computer Science	2022
Savitribai Phule Pune University	72.86%

INTERNSHIP EXPERIENCE

Android Flutter Developer Intern Mar 2026 – Jun 2026
JMN Infotech Pvt. Ltd.

- Developed enterprise-grade Android and Flutter applications for attendance management, public transportation, inventory tracking, NFC payments, and hospital asset monitoring.
- Implemented TensorFlow Lite and Google ML Kit, biometric verification for secure low-latency identity authentication.
- Designed role-based Flutter dashboards with live tracking, QR validation, and dynamic fare calculation systems.
- Optimized offline-first architectures using SQLite synchronization for uninterrupted operations.
- Integrated RFID, NFC, QR Scanner, Camera, Geofencing, and Location APIs for hardware-enabled enterprise workflows.
- Collaborated with development teams to deliver scalable MVVM-based mobile applications.

Fullstack Development Intern
Engeniuspark Technologies Pvt. Ltd.

Jan 2025 – Jun 2025

- Developed and maintained full-stack applications using Node.js, Express.js, MySQL, JavaScript, and Bootstrap.
- Created 30+ web tools including portfolio websites, resume builders, calculators, and PDF utilities.
- Designed responsive interfaces for healthcare, travel, education, and e-commerce projects.
- Delivered interactive games, dashboards, and voice-enabled web applications.

Web Development Intern
SachiTech Software Training Institute

1 Month

- Designed responsive client-facing web interfaces using HTML, CSS, and JavaScript.
- Conducted debugging, testing, and cross-browser optimization for improved performance.

AI/ML Trainee
iBase Technology, Pune

10 Days

- Worked on machine learning fundamentals, data preprocessing, and predictive modeling.
- Gained hands-on experience with NumPy, Pandas, and Scikit-learn.

PROJECTS

Enterprise HRMS Employee Portal

Android, Flutter

- Developed biometric attendance verification using TensorFlow Lite, Google ML Kit, and Geofencing.
- Implemented MVVM architecture, secure API integration, and offline synchronization.

CityConnect Bus Tracking Mobile Ticketing

Flutter

- Built a real-time public transportation platform with live vehicle tracking and digital ticketing.
- Integrated OpenStreetMap, QR validation, route analytics, and dynamic fare calculation.

Canteen POS NFC System

Android

- Developed NFC-enabled offline payment and order management functionality.
- Implemented encrypted local storage and synchronization architecture.

RFID Toolcrib Management System

Android

- Developed RFID-based inventory tracking for rugged PDA devices.
- Implemented reflection-based SDK integration and real-time asset scanning.

Sprouting Seeds IVF Website

Node.js, Express.js

- Developed appointment booking, newsletter, blog, and testimonial management modules.
- Implemented admin dashboard functionality and automated email notifications.

Brijiyatra Travels Website

HTML, CSS, JavaScript

- Designed and deployed a responsive travel booking platform.
- Improved user experience through structured routing and dynamic content presentation.

E-Devices Rental System

Java

- Online platform allowing users to browse, reserve, and rent electronic devices.

Responsive Tools

- Resume site, QR generator, pricing toggle UI, BMI/text tools.

Games & Demos

- RPS game, Snake, Chess, Alexa-based demo.

UI Layouts

- Aqua Adventure, Blogger site with EJS, Movie poster cards.

Readymade API Projects

- OMDb/AMZ product display.

AI-Driven Automated UI/UX Code Generation

- Research on building intelligent front-end designs from user prompts.

Human-Computer Interaction (HCI)

- Study to improve interactive system usability and accessibility.

RESEARCH PUBLICATIONS

- **AI-Driven Automated UI/UX Code Generation** – Research focused on generating intelligent front-end interfaces from natural language prompts.
- **Human Computer Interaction (HCI)** – Research on improving usability, accessibility, and user experience in interactive systems.

CERTIFICATIONS

- Android Flutter Training – JMN Infotech
- Fullstack Development Training – Engeniuspark Technologies
- On-the-Job Training – SachiTech Innovators
- AI/ML Trainee Certification – iBase Technology
- Human Computer Interaction (HCI)
- AI-Driven UI/UX Code Generation Research

ACHIEVEMENTS

- Developed enterprise mobile applications integrating RFID, NFC, QR Code, Geofencing, Biometric Authentication, and AI technologies.
- Built and delivered 30+ web applications, tools, dashboards, and interactive software solutions.
- Contributed to Android and Flutter applications supporting transportation, inventory management, attendance systems, and healthcare operations.
- Published academic research on AI-Driven Automated UI/UX Code Generation.

EXTRACURRICULAR ACTIVITIES

- Participated in software development workshops, hackathons, and technical training programs.
- Actively involved in UI/UX design research, application prototyping, and emerging technology exploration.
